EDUCATION

NAU, Master, Houston 2018 - 2021
Networking, web & mobile security, and algorithms.
I have gained most of my skills in the last 3 years. I am continuously improving my skills by attending online meetups and new feature release talks. I am so excited about learning new tools and technologies, especially learning the best practices which makes life easier.

NEU, Bachelor, Turkey 2010 - 2014
Computer Science and Integration of technology in Education.

EXPERIENCE

Harmony Public Schools, IT Manager 2016 - 2018
Computer science teacher and IT manager

- Solving technical problems and teaching computer science to K-8 students.
- Fixing hardware and software related problems with computers, laptops, and tables
- Keeping the campus website uptodate.
- Managing domain users and devices in the network.

SUMMARY

I have been developing web applications for the last 3 years utilizing the modern and futuristic tools of Google.

I have developed e-commerce, project-management, and inventory management applications to demonstrate my skills in software development, especially in the tools like angular, nodejs, typescript, and javascript.
